TARIMA

ALICANTE

A slightly tempered Continental climate with Mediterranean influences. Winters are cold , with snow in the higher elevations. The soil is dry and shallow , and is primarily composed of limestone, which is the mother rock. The soil is intermixed with large chunks of pure chalk. The largest marbel quarry in Europe is located near our vineyards , testament to the chalky quality of the soils . Marble is the product of chalk, or calcium carbonate , that has been compressed over a very long period of time.

Legacy & Future Vintages

TARIMA HILL Monastrell 2021

"This elegant red offers a broad and expressive core of blackberry paste, crème de cassis, mocha and vanilla flavors trimmed nicely by sculpted tannins and lively acidity. Monastrell. Drink now through 2029."

90pts, "Smart Buys" Wine Spectator 07/24

"Rich and ripe nose, full of chocolate fudge and ripe blackberries. Hints of figs, too. On the palate, it is still juicy and broad with firm, dusty tannins and a flavorful finish. Drink now."

UPC# 8 431358 06613

TARIMA Mediterraneo 2023/25

An aromatic, exotic and refreshing wine, loaded with lemon, stone fruit and white flowers. On the palate, the wine is very juicy and fruity, with the typical muscat profile clearly coming through. Easy drinking with medium acidity and a crisp finish.

UPC# 8 436555 7278 8

TARIMA Rosé 2024

A delicate hue of soft, salmon-pink sets the stage for this wine's brilliant charm. Its aroma is a captivating medley–fresh cherries, juicy red licorice, and a hint of citrus mingle with whispers of sea breeze and delicate floral notes, creating a balance that feels effortlessly harmonious. On the palate, it's as inviting as it is refined. Medium-bodied with a juicy, refreshing character, the flavors of ripe red fruits are complemented by a smooth, velvety texture that leaves a subtle, creamy finish. This wine is more than just elegant–it's a delightful expression of finesse and vibrant complexity, sure to be remembered with every sip.

TIERRA DE CASTILLA Harsh, arid, continental climate with cold winters that see snow. During the summer, the temperature fluctuates drastically between day and night. The soils are very sandy and are intermixed with pure chalk and red clay.

ALMANSA, JUMILLA, VALENCIA Less extreme climate than in La Mancha, but summers are very hot. The soil is rich in limestone, alternating areas of land with stones and little substrate with more sandy and deep areas. These conditions permit us to obtain wines with lots of flavor and color intensity.

QUINTA DEL '67 Almansa Garnacha Tintorera 2020

"Very ripe and spicy nose with some coffee, dates, charred spices and pine trees to the black cherries and blackberries. Rich and flavorful on the full-bodied palate with dense, chewy tannins and a long, spiced finish. Big, opulent and pretty hedonistic in style. Slightly jammy, but not overdone. Garnacha tintorera. Try in 2025."
