Organic Cider & Perry

The Dunkerton Cider Mill is set in the ancient parish of Pembridge, an area of farmland, woods and hedgerows, where medieval half timbered villages meet the stone market towns of Wales.

Dunkertons history reaches back to 1980 when Ivor and Susie Dunkerton made the decision to escape London and buy a small holding in Herefordshire.

The unique blending method uses traditional varieties of organic cider apples and pears grown on estate owned orchards. Only the finest tasting traditional varieties of certified organic apples and pears are sourced. It is this careful selection of fruit that gives our drinks the delicate and aromatic characteristics required to be award winning.
