

Santa Barbara Reserve Chardonnay 2017

USA

90PTS

Wine Spectator
August 26, 2019

The resulting wine is full-bodied and richly textured with complexity of flavor further enhanced by barrel fermentation. 'Sur lie' lets the fermented wine 'sit' over the sediment created by fermentation. The barrels are stirred frequently to better absorb the flavors of the 'lie' (pronounced 'lee'). The resulting wine has aromatic and flavor intensity complementing the rich character of this Santa Rita Hills Chardonnay. A moderate crop on low vigor vines gives us good concentration with ripe flavors. Our new upper Mesa planting is producing better fruit each year as it matures. The fruit intensity allows full barrel fermentation as well as complete malolactic fermentation.
