REACH FOR THE TREES

NO SINGLE ORGANISM HAS A GREATER CAPABILITY TO STABILIZE OUR CLIMATE THAN A TREE. THE LEAF CANOPY CAPTURES CARBON FROM THE ATMOSPHERE, TURNS IT INTO FUEL AND SENDS IT DOWN THE VAST ROOT SYSTEM TO FEED THE LIVING SOIL. DEFORESTATION IS SHRINKING THE GLOBAL SUPPLY AND WE NEED FAR MORE TREES, NOT LESS. ONLY ONE THIRD OF THE WORLD'S LAND HAS ENOUGH ANNUAL RAINFALL TO SUSTAIN A HEALTHY FOREST; WHERE THEY CAN GROW THEY ARE CRUCIAL BECAUSE A COVERED PLANET IS A HEALTHY PLANET.

ABRUZZO, ITALY

PROFILE

We stumbled upon this lovely and expressive Montepulciano hailing from the back of the boot, right off the Adriatic Sea. An exhilarating bouquet of ripe cherry mingles with dried red roses and spice notes. The palate shows juicy length which develops with a toasted oak finish. Lay back in your hammock and shoot the breeze and you'll be saying "tutto bene" like a local.
