

KIND of WILD

MADE WITH ORGANIC GRAPES

SAUVIGNON BLANC 2023

EYES OF SURVIVAL

THE NATURAL WORLD IS AN INTERCONNECTED ECOSYSTEM WHERE FLORA AND FAUNA RELY ON EACH OTHER TO COEXIST. THIS SYMBIOTIC RELATIONSHIP IS PERHAPS MOST IMPORTANT WITH OUR POLLINATORS. BEES, BUTTERFLIES, HUMMINGBIRDS, AND OTHER RESOURCEFUL SPECIES PROVIDE THIS LINK THAT CONNECTS THE LIFE-LINE FOR FUTURE GENERATIONS. OVER THREE QUARTERS OF OUR CROPS RELY ON POLLINATORS, MAKING UP A SIGNIFICANT PORTION OF THE WORLD'S FOOD SUPPLY; WE DEPEND ON THEM AND WATCH OVER THEIR SURVIVAL.

ORIGIN

Western Cape,
South Africa

WESTERN CAPE, SOUTH AFRICA

The grapes were handpicked in the early hours from the broader Western Cape region. Covering a vast area of over 400 kms, vineyards were selected from several premium wine regions in an effort to showcase the unique diversity in flavor profiles available within the Western Cape. The Sauvignon Blanc is produced from higher, cooler vineyards in the Cape.

PROFILE

We've been in PURSUIT of a delicious South African wine for an ETERNITY. Persistence paid off, as this little gem from the Western Cape emerged from the WILD. It's refreshingly BRIGHT & CITRUSY and will have your taste buds on SAFARI at first sip.

FOOD PAIRING

Kind of Zesty! Try a garlic shrimp Taco Tuesday or roasted pepper fajitas with salsa verde, both dishes will pair perfectly with this refreshingly clean Sauvignon Blanc.
