

TORTOISE CREEK

HANDCRAFTED, SMALL-PRODUCTION
WINES FROM CALIFORNIA WITH AN
EMPHASIS ON SUSTAINABLE FARMING

THE MASTER FAMILY founded Tortoise Creek in 1997 partnering with small, sustainable growers to produce wonderfully balanced and structured wines at great values. They named it after a beautiful creek they would often visit on their vineyard property which was a home to a family of tortoises.

OUR WINES

The concept with Tortoise Creek is to work with small farmers in California who focus on sustainable farming. Tortoise Creek is handcrafted, small-batch wines selected and blended from growers who understand this philosophy.

In 2008, Mel and Janie Master joined forces with the Sager family who own the national importing company, Winesellers, Ltd., and together they have extended the range to consists of top quality Chardonnay, Cabernet Sauvignon, Merlot, Zinfandel, Pinot Noir, and Sauvignon Blanc. They are all blended to create the best possible representation of the varietal and offer remarkable value.
