

MONT GRAVET

Mont Gravet takes you to the sunshine and joy of the south of France where wine is a staple of life.

Mont Gravet is a tribute to the southern France terroir. Grown on south exposed gentle slopes called “Mont” the grapes benefit from the warm sun, while the mists from the Atlantic Ocean to the west and Mediterranean Sea to the east bring cooler winds. The vines are grown on clay soils and rolled pebbles called “Gravet” forcing the roots to go deep into the ground to find water, enhancing the wine’s elegance.

These delicious wines celebrate the slower pace and laid-back everyday lifestyle of southern France.
