

KIND of WILD

MADE WITH ORGANIC GRAPES

SKIN-FERMENTED GRENACHE BLANC 2024

EYES OF THE WORLD

HUMANS WATCH OVER THIS PLANET AND WE ARE LUCKY FOR THE ABILITY TO SEE SUCH BEAUTY THAT SURROUNDS US. WE SEE THE MOUNTAINS, THE RIVERS AND THE OCEANS THAT EXIST SIDE BY SIDE WITH THE GRASSLANDS, THE FORESTS, AND THE DESERTS. WE CAN PROTECT WHAT'S LEFT AND RESTORE IT FOR FUTURE GENERATIONS SO THEY TOO CAN MARVEL AT THE BEAUTY OF THESE UNIQUE PLACES EXISTING IN BALANCE.

REGION

Vin de France

VIN DE FRANCE

France's rich and diverse terroir offers a unique mosaic of soils, climates and know-how, enabling the expression of wines of great complexity and unrivalled typicity. The vines thrive on clay-loam soils, giving the grapes unique characteristics. This terroir typicity is reflected in the wine's aromatic complexity and structure. The grapes are harvested when fully ripe, by hand to preserve the integrity of the berries. Once in the cellar, the grapes are vinified without destemming or crushing. The whole grapes are placed in vats for an extended 12-day pellicular maceration. This stage is decisive in obtaining the characteristic orange hue and enriching the wine's tannic structure. Fermentation takes place at controlled temperatures to preserve fruity and floral aromas. After fermentation, the wine is aged on its lees in earthenware jars, preserving its freshness.

VARIETAL

PROFILE

FOOD PAIRING

100% GRENACHE BLANC

Orange you thrilled when you find yourself in a serendipitous situation? This was us when we found this bright & fresh Skin-Fermented Grenache Blanc from the South of France. This wine will take you on a shortcut to happiness.

Kind of Bold! Katie's healthy red lentil curry has a rich flavor and complexity that tastes like it takes hours to prepare. Butternut squash and coconut milk combine with the lentils to make a hearty vegetarian dish. This creative dish pairs perfectly with the subtle nuance of our Orange wine.
