

Bodegas Volver celebrates traditional Spanish wine culture by showcasing its variety, depth and unique terroirs. We concentrate on cultivating Spanish indigenous varieties such as Monastrell, Tempranillo, Garnacha Tintorera, Merseguera, Macabeo and Moscatel from the regions of La Mancha, Alicante, Valencia, Jumilla and Almansa – each wine telling the unique story of these regions.

LA MANCHA

The high altitude arid plains of La Mancha have a continental climate – cold, snowy winters, drenched with sunlight and drastic diurnal summer temperatures with nearly zero precipitation. The soils are very sandy and are intermixed with pure chalk and red clay, evening out the precious moisture for the vines. These harsh conditions result in rich red wines.

TIERRA DE CASTILLA Harsh, arid, continental climate with cold winters that see snow. During the summer, the temperature fluctuates drastically between day and night. The soils are very sandy and are intermixed with pure chalk and red clay.

It is both spicy and juicy on the palate, with flavors of eucalyptus, anise, blackberry and raspberry and notes of milk chocolate and roasted fennel, all wrapped in firm tannins that melt away into a gentle finish."
